Eagle Manufacturing Company

A note from the President...

After nearly 125 years in business, Eagle Manufacturing Company continues the tradition of providing innovative quality products and services to our customers. Although times are much different today than they were when the company started in 1894, our early mission of Protecting People, Property and the Planet® has served our customers well through the years. In support of this mission, and to keep our customers as priority one, we continue to strive toward excellence and quality in all that we do.

We have updated the Eagle brand to better reflect the quality, breadth and depth of products and services we provide for our customers. We have updated our Compliance Solutions product catalog, created new product data sheets and a comprehensive product-featured Website (eagle-mfg.com), Flexible Containment catalog, Poly Drums catalog and other marketing materials that feature the updated branding.

We also support our mission by manufacturing the world's largest line of industrial safety and hazardous materials handling products, including safety cabinets, safety cans, spill containment, poly drums, guards/protectors, traffic safety and material handling products, representing more than 1,000 products. New product innovation includes several new models of poly drums, flexible containment berms, metal spill pallets, light-weight security bollards and machine guards, poly rack guards, poly spill kit and industrial waste carts, and our new patent-pending modular poly cabinet line.

New product innovation requires expanded production capacity, and expanded capacity requires new manufacturing, warehousing and distribution space. In past couple of years, we have expanded our plastics production capacity and our distribution center to nearly 100,000sf, and we have added a 50,000sf fabrication center with engineering testing lab.

We are proud to say that all our products are Made in the USA, by the best craftsmen in the industry. When you purchase an Eagle product, you are assured of the highest quality products, with the most innovative features, at the best value on the market, and supported by exceptional customer service.

I would like to thank all our customers for your continued loyalty, support and trust as we work together in the mission to Protect People, Property and the Planet®.

Joe C. Eddy
Joseph C. Eddy - President/CEO

***"Our Mission is to Excel in Manufacturing and Marketing
and to be the Supplier of Choice to our Customers."***

SAFETY CABINETS

- 4 Standard Cabinet Features
- 6 Flammable Storage Cabinets
- 8 Tower™ Cabinets
- 9 Paint & Ink Tower™ & Paint & Ink Cabinets
- 10 Drum Safety & Haz-Mat Cabinets
- 11 Pesticide Cabinets
- 12 Metal Acid & Corrosive Cabinets
- 13 Poly Acid & Corrosive Cabinets
- 14 Modular *Quik-Assembly™* Poly Cabinets
- 16 Office Supply Cabinets
- 17 Cabinet Accessories

SAFETY CANS

- 19 Cantastic – Standard Safety Can Features
- 20 Type I Galvanized Safety Cans – Flammables & Diesel
- 21 Type I Galvanized Safety Cans – Kerosene & Combustibles
- 22 Type II Safety Cans – Flammables, Diesel, Kerosene & Combustibles
- 23 Lab & Faucet Cans & DOT Cans
- 24 Disposal Cans – Poly, Galvanized, Stainless & Specialty Use Cans
- 25 Plunger, Bench, Daub Cans
- 26 Poly Waste Cans
- 27 Standard Cigarette Receptacle, Butt Cans & SafeSmoker™

SPILL CONTAINMENT

- 29 Spill Containment Features
- 30 Budget Basin Platforms
- 31 Spill Pallets
- 32 Modular Spill Platforms
- 34 Metal Spill Pallets & Drum Stackers
- 36 Outdoor Drum Storage & Workstations
- 37 IBC Containment Units, Boxes & e-CARTS
- 38 Spill Containment Sumps
- 39 Drum Dollie, Bogie & eCart
- 40 Utility Tray, Single Drum Containment Unit
- 41 Mobile Spill Platform and Drum Accessories

SAFETY CABINETS

A leader in the manufacturing of Safety Cabinets for nearly 50 years, Eagle Manufacturing has set the industry standard for high-quality Safety Cabinets for the storage of flammables and other liquids. In 2011, Eagle designed a new state-of-the-art production facility and created a cabinet design incorporating improved convenience and safety features. Our Safety Cabinet product line is designed and manufactured to best meet the ever-changing needs of today's business, industrial and laboratory environments and is made in the USA.

Eagle Steel Safety Cabinet features include:

- Reinforced double wall construction with 1½ in. (3.8 cm.) air space on sides, top, bottom, back and doors
- Constructed of 18 gauge steel
- Lead-free, high-gloss, baked-on powder finish
- Continuous piano hinges
- Ground connection
- Four adjustable galvanized leveling legs
- Trilingual warning labels
- 2 in. (5.1 cm.) raised leakproof sill
- Adjustable galvanized steel shelves that hold 350 lbs. (158.8 kg.) Uniform Distributed Load (UDL)
- Internal and external welded construction
- Two 2 in. (5.1 cm.) internal vents with fire baffle and cap
- Flush mounted door handle with key lock
- Three-point latch system
- 4¾ in. (12.1 cm.) centers for shelf brackets
- Self-latching doors
- Door closings: Manual Close (180° Opening)
Self-Closing (90° Opening)

(Available in 2- (7.6 L) to 110- (426.4 L) gallon sizes. Manual Close or Self-Closing.)

ALL CABINETS INCLUDE STANDARD FEATURES & BENEFITS SHOWN ON PAGE 5

Acid & corrosive safety cabinets include:

- Special corrosion-resistant powder coat finish on all internal and external surfaces, including shelves
- Poly shelf and bottom trays to help contain small spills and provide extra corrosion protection
- Steel cabinets are not recommended for the storage of aggressive acids such as nitric, sulfuric and hydrochloric
- Also available in 100 percent polyethylene construction for storage of aggressive acids

Did you know?

Approved safety cabinets are designed to protect the contained flammable liquids for a period of 10 minutes, giving personnel time to exit in case of fire.

MODULAR *QUIK-ASSEMBLY*[™] POLY CABINETS

Eagle introduces a new line of Modular *Quik-Assembly*[™] Poly Cabinets ideal for lab or industrial settings. Made of heavy duty High Density Polyethylene, these models can be assembled in minutes without tools. The 4-gallon (15.2 L) model is a stand-alone unit, while the 12-gallon (45.5 L), 24-gallon (90.9 L) and 48-gallon (181.7 L) models can be linked and stacked to create additional vertical or horizontal units. Models can be assembled with the option of the lockable doors opening to the left or right. Cabinets are also available in yellow, black, beige, white and gray in 4-gallon (15.2 L) and 12-gallon (45.5 L) models.

Features:

- Ideal for labs and industrial settings
- Assembles in minutes, no tools required
- Lockable doors open to 180°
- Doors can be assembled to open to the left or right
- 100 percent HDPE construction
- Adjustable shelves, 38 lbs. (17.3 kg.) per shelf (UDL)
- Sealed internal containment sump
- Two 2 inch (5.1 cm.) poly vents with caps
- 'Caution Corrosives' label included
- Modular linkage brackets included
- Additional color options on pg. 14-15

SAFETY CANS

For nearly 60 years, our Safety Can product line has been an industry leader of galvanized Type I and Type II Safety Cans that meet OSHA and NFPA Code 30 requirements, and are UL and ULC listed and FM Approved for safe storage and handling of flammable liquids. Eagle offers FM Approved Compliance Solutions in a variety of poly and stainless cans, lab cans, faucet cans, disposal cans, plunger, bench & daub cans, and poly oily waste cans to help keep your personnel and facilities protected. Made in the USA.

Safety Can options:

- Type I Safety Cans
- Type II Safety Cans
- Type I Poly Cans
- Stainless Cans
- Lab Cans
- Faucet Cans
- DOT Cans
- Disposal Cans
- Specialty Cans
- Plunger Cans
- Bench Cans
- Daub Cans
- Poly Oily Waste Cans
- Biohazardous Cans

Patented comfort grip trigger release plus spring closing lid with nitrile gasket that vents at 5-PSI internal pressure

- Eagle Type II Safety Cans are made of galvanized steel and help reduce the danger of explosion while dispensing flammable liquids through a flexible 12 in. (30.5 cm.) metal spout
- Flame arrestors in filler opening and pour spout

Compliance: OSHA 29 CFR 1910.106,
1926.152 and NFPA Code 30

- Metal Safety Cans are FM, UL and ULC Approved and meet OSHA and NFPA Code 30 requirements. Poly Cans are FM Approved.

Laboratory Safety Cans:

- Laboratory Safety Cans reduce the danger of explosions resulting from the ignition of vapors of flammable liquids
- Cans are available in coated metal, stainless steel and high-density polyethylene for safe storage and handling of most chemical compounds

Compliance: OSHA 29 CFR 1910.106,
1925.152 & NFPA Code 30

DOT Transport Type II Safety Cans:

- Reduce the danger of explosion while dispensing flammable liquids through a flexible metal spout
- Have double-walled flame arrestors in filler opening and pour spout
- Heavy duty roll bars protect both spouts, and a thumb screw mechanism assures the filler opening stays closed while being transported
- Meet DOT requirements

Compliance: OSHA 29 CFR 1910.106, 1925.152 & NFPA
Code 30 - UN/DOT-1A1/Y1.2/100/08/USA/M4990/0.6mm

Plunger & Bench Safety Cans:

- Eagle Safety Plunger Cans are ideal for cleaning with flammable or volatile fluids
- Feature brass flame arrestor dasher screens and pump assemblies and comply with OSHA standards
- When the dasher plate is pushed down, the safety can dispenses a small amount of liquid to easily moisten sponges or rags without messy or dangerous spills
- Polyethylene and coated metal models available
- FM Approved
- Eagle Safety Bench Cans are designed for safer cleaning of small parts or swabbing of larger ones
- Dasher screens act as a fire baffle

Polyethylene Oily Waste Cans:

- Fire-safe temporary storage of solvent rags, waste rags, shavings and other materials

Compliance: OSHA 29 CFR 1910.125(e)(4)(ii) and OSHA 29 CFR 1910.125(e)(4)(iii)

Polyethylene

Biohazardous Waste Cans:

- Advise workers of potential biohazards and meet OSHA requirements for exposures to blood borne pathogens

Compliance: OSHA 29 CFR 1910.1030

Can be used with or without a liner

Fire-safe temporary storage of solvent rags, waste rags, shavings and other materials subject to spontaneous combustion

Polyethylene construction won't rust or dent and is resistant to most chemical compounds – heavy-wall HDPE construction

Meets OSHA and NFPA Code 30 requirements and are accepted for temporary storage of oily waste materials

Flared base for added stability

SAFESMOKER™ & Butt Cans

SafeSmoker™ Cigarette Receptacle is made of high-density polyethylene with UV inhibitors, with a galvanized steel collection bucket inside. Design restricts oxygen to quickly extinguish burning butts. Top of container removes easily to access and empty internal bucket. Rain-protective design keeps water out and eliminates odor. Includes integrated hold-down tabs for security and wind protection.

Eagle Butt Cans are ideal for “designated smoking areas” inside or outside. Features poly tube and galvanized can base. Yellow for in-plant use and beige for office or commercial areas.

Original Butt Cans

This all-metal galvanized steel can is excellent for smoking areas in industrial settings. 5-gallon (18.9 L) capacity in yellow or beige.

SPILL CONTAINMENT

Since the 1980s, Eagle Manufacturing has had the most flexible and comprehensive spill containment and storage product line available. As the market leader, we have trusted Compliance Solutions to help keep your personnel and facilities protected. All of our products are 100 percent made in the USA, and are constructed of high-density polyethylene (HDPE) for excellent chemical resistance and maximum performance to meet EPA and SPCC compliance. This product line includes Budget Basins, Modular Platforms, Pallets, Sumps, IBC Containment Units, Outdoor Storage, Workstations and Spill Containment Boxes.

Eagle offers 3 Spill Containment options: Rigid, Flexible and Steel

*Modular Platform
easy to connect
with a built-in
U-channel*

*Poly Pallet
Ramp for easier
loading and
unloading*

All Eagle Basins, Pallets and Platforms feature high-performance engineered plastic construction for excellent chemical resistance and impact durability for long life. Pallets and Platforms are also UV Protected.

Removable grating for easy cleaning

Forklift pockets

Removable flat top grating

Modular platforms easy to connect with built-in U-channel

Model 16-DRAIN
Containment Drain

Designed for Eagle spill containment platforms and pallets that have built-in drain plugs. The 16-DRAIN connects into the 3/4 in. (1.905 cm.) port in the side of the tub to allow liquid in the tub to drain through the assembly. The assembly includes a replaceable absorbent sock (Model 16-FILTER) to collect oil allowing only water to discharge at the other end of the drain assembly for proper disposal. The assembly also has a plastic mesh screen inside to collect debris. When the absorbent sock in the assembly is fully saturated the liquid flow stops. The threaded drain assembly allows for easy removal and replacement of the absorbent sock. (Replacement sock kit sold separately Model 16-FILTER).

TYPICAL CONFIGURATIONS

100% Recyclable

Modular design allows for multiple configurations. Easy to connect with built-in U-channel. Low profile for easy loading and unloading.

All Eagle Pallets & Platforms feature:
High-performance engineered plastic construction for excellent chemical resistance and impact durability for long life.

EPA 40 CFR 264.175: Container storage areas must have a containment system that has sufficient capacity to contain 10 percent of the volume of containers or the volume of the largest container, whichever is greater.

This marker indicates compliance with EPA spill prevention, control and countermeasures regulations.

Horizontal Drum Stacking System Drum Containment

Used in combination with our spill containment platforms, this product meets EPA Secondary Containment Storage requirements (40 CFR 264.175).

All components are 100 percent polyethylene, designed to lock into spill pallet grating for stable drum storage and are ideal for chemical storage and dispensing. Shelf attaches easily, allows for filling multiple containers at once and can be moved via forklift.

Soft Top Containment

The NEW Eagle Soft Top Containment Unit (Model 1645STC) provides protection from the elements for up to four 55-gallon (208.2 L) drums with a durable soft top cover built on a 4-drum HDPE containment pallet. Ships unassembled for reduced shipping costs. Easy step-by-step assembly for a secure and quick weather resistant containment solution. The height of the cover allows storage with drum pumps in place.

The four drum pallet is 100% HDPE construction that resists corrosion and weathering. The flexible soft top is constructed of high-vis yellow PVC fabric over a rugged galvanized steel frame. Access drums through the front or back. For maximum loading and unloading ease use with the Eagle HDPE Poly Ramp (Model 1689 – Sold Separately.)

4 Drum Poly Storage Building

Securely stores up to four 55-gallon (208.2 L) drums. Features four-way forklift pockets, vented door louvers, removable grating and top hooks for moving. **[Note:]** Top hooks are intended only for moving empty building. Door opening accepts up to a 48 in. x 48 in. (122 cm. x 122 cm.) pallet. (Use a cable to lock.)

2 Drum Workstations

A secure way to store drums inside or outside. Available in low (1626) or high (1628) profile for the storage of two drums. Units can be moved via forklift and have optional dolly allowing for easier movement on worksite. Includes locks for secure storage.

Drum Containment Dollie

The Eagle Drum Containment Dollie is constructed of Yellow HDPE with double black straps for easy loading, and its lightweight design with rounded handles for easy tipping. The Dollie transports 55-gallon (208.2 L) drums with ease, and tilts to become a self-dispensing unit. It also acts as its own secondary containment unit.

Features

- Tough yellow polyethylene construction with a lightweight design
- Extra large, easy roll 10 in. (25.4 cm.) poly wheels
- Drain Plug that simplifies removal of contents from sump
- Holds up to 600 lbs. (272.2 kg.) (UDL)
- Double buckle and strap
- Forkliftable from the rear
- Molded handles
- Rounded handle makes lifting easy

Drum Bogie

Mobile dispensing unit protects against incidental spills and leaks for 30- (113.6 L), 55- (208.2 L) and 95-gallon (359.7 L) drums. The durable polyethylene Bogie resists corrosion; has five swivel casters for maximum stability, load capacity and maneuverability; and features a poly push-pull handle. Ships via UPS.

Eagle e-CART Wheeled Spill Kit Cart Features:

- Constructed of durable HDPE
- Ergonomically designed handles
- Double-walled hinged lid with a hold-down tab
- Rugged galvanized steel bar handles
- HDPE wheels on a heavy duty steel axle
- Wear tabs on the bottom
- Ergonomically designed

Mobile Spill Platform and Drum Accessories

Mobile Spill Control Platform

The safety of a spill containment platform with the convenience of mobility; safely transfer containers between workstations.

Drum Funnel and Cover

The 18 in. (45.8 cm.) wide drum funnel fits both 30- (113.5 L) and 55-gallon (208.2 L) drums. The 6 in. (15.3 cm.) high side walls reduce splashing and spout fits any 2 in. (5.1 cm.) NPT bung. The optional funnel cover keeps out dirt and contaminants.

Compliance: EPA 40 CFR 265.173.

Drum Covers

HDPE construction, covers for closed (1666) or open (1667) head drums.

Drum Tray and Drip Pan

Eagle Poly Drum Tray is ideal under drums where dispensing or filling takes place. The drip pan catches up to one gallon of oils, coolants, water or other non-aggressive liquids. Constructed of high density polyethylene (HDPE). Model 1614 without black HDPE grating, Model 1615 with black HDPE grating. For use with Eagle Model 1618 - Drum Tray Dolly with four 3 inch casters.

Eagle Quik-Deploy™ Spill NEST™

The Eagle Quik-Deploy™ Spill NEST™ is a compact and affordable solution for fast response to leaks and drips. This product features a 4 in. low profile sidewall and is available in six sizes, which are leak tested before shipment. Made in the USA.

Perfect for:

- Changing oils and fluids
- Quick use under leaking vehicles
- Protecting bottom surfaces while dispensing
- Performing maintenance on an item with spill potential
- Constructed of PVC Coated Fabric
- Made in the USA

Eagle SpillNEST™

Available with or without grating

The Eagle SpillNEST™ line delivers easy-to-use, affordable, temporary spill containment for drums, machine parts, small equipment and other jobsite needs. This new product is available with or without the classic black HDPE grating used in Eagle's market-leading HDPE Spill Containment Pallets. Available in six sizes.

Features:

- Foam sidewalls that easily spring back into place after pressure is applied
- Folds for easy storage
- Affordable and reusable
- No need for ramps, drive in and drive out with hand trucks
- Constructed of PVC Coated Fabric
- Made in the USA

Eagle SpillNEST™ Berm with Removable Sidewalls

The Eagle SpillNEST™ Berm with Removable Sidewalls assists with safety and compliance on the job site. Available in Economy, Standard and Heavy Duty designs. The sturdy design incorporates high strength connectors and a two-way air relief system to facilitate automatic entry and exit at any angle.

Conveniently folds, stacks and stores on a shelf or in a container for immediate use, setup and reuse. To maintain quality and life of your SpillNEST™ Berm, Eagle offers accessories including Ground Pads, Track Mats and Storage Bags.

- For oil and gas sites and other large area applications
- Easy to assemble
- Folds, stacks and stores conveniently
- Ready for immediate setup and use
- Durable and reusable
- 13 sizes available
- Made in the USA
- Available in Economy, Standard and Heavy Duty material variations
- Entry and exit from any point without harming foam logs

Heavy Duty

Standard

Economy

3 material variations:

- Economy SpillNEST™ Berm is designed for indoor and temporary outdoor use (Yellow PVC)
- Standard SpillNEST™ Berm is designed for indoor and outdoor use with moderate to heavy traffic (Black XR5 Material)
- Heavy Duty SpillNEST™ Berm is designed for rugged outdoor use with heavy to extreme traffic (Tan PTFE)

Eagle Talon™ SX Berm

The Eagle Talon™ SX Berm features excellent rip, tear and puncture resistance for the most demanding application or terrain. To maintain quality and life of your Talon™ SX Berm, Eagle offers accessories including Ground Pads, Track Mats and Storage Bags. See page 51.

- Ideal for fuel use
- Constructed of XR5 Fabric
- Easy to assemble
- Compact storage and transport
- CAD design and cut components
- Lap joint welds for maximum strength
- Snap-up design permits immediate response
- 30 sizes available
- Made in the USA

Model T8424

Eagle Talon™ SX L-Bracket Berm

- Space saving design
- 2 ft. (61 cm.) wall height
- Quick setup
- Brackets can be mounted inboard or outboard
- Available to match many chemical applications
- Compact shipping and storage

Eagle Talon™ Spill Berm

The Eagle Talon™ Spill Berm is a lightweight, portable berm constructed of yellow vinyl-coated polyester. Available in seven sizes.

- Snap-up supports
- Folds for compact storage and transport
- Unique and sturdy supports
- Excellent for decontamination applications
- Great addition to a Spill Kit
- Chemical resistant
- Made in the USA
- Constructed of PVC Coated Fabric

Model T8401

Eagle Spill/NEST™ Drip Pads

Eagle Spill/NEST™ Drip Pads are used for leaks. Designed to be used as a durable, portable drip pad. Made in the USA.

- Each unit folds easily
- Refill pads are available in packs of 5

FLEXIBLE CONTAINMENT

Eagle Talon™ Drive-In & Drive-Out

The Eagle Talon™ Drive-In and Drive-Out Spill Berm allows the user to drive in and out without having to lower the end walls. Fuel and chemical resistant.

- Ideal for fuel use
- Constructed of XR5 Fabric
- Easy to assemble
- Lap joint welds for maximum strength
- Design permits quick deployment
- Additional sizes available
- Made in the USA

DripNEST™ Hose Bibbs

Model T8380

The Eagle DripNEST™ Hose Bibb safely wraps quick-disconnect fittings or other hose attachment ends to absorb small leaks when disconnecting hoses from industrial equipment. Integrated internal sorbent allows for containment of up to 1 pint of oil, hydraulic fluid or other hydrocarbons.

Model No.	Description	Color	Weight	Compliance
T8380	DripNEST™ Hose Bibb	Yellow	8 oz. 237 mL.	
T8380BX	DripNEST™ Hose Bibb (5 pack)	Yellow	8 oz. 237 mL. (5)	

Eagle DripNEST™ Leak Diverter

Eagle DripNEST™ Leak Diverters provide an instant drip diversion. Available in various sizes, this funnel style diverter will channel away liquids to minimize the risk of injuries, property damage and contamination. Flow rate: 3 gal. per minute. Includes a garden hose connector with cap for easy set up. Made in the USA.

Model No.	Description	Color	Weight
T8301	DripNEST™ Leak Diverter 3 ft. x 3 ft./91 cm. x 91 cm.	Yellow	2 lbs./9 kg.

Eagle StormNEST™ Storm Water Control Basin Inserts

The Eagle StormNEST™ Storm Water Control adjustable catch basin inserts to help with NPDES, 40 CFR 122.26 compliance of Stormwater Pollution Prevention Plans when used as Best Management Practices. Designed to protect storm drains and sewers from debris and sediments. Available with or without oil-absorbent bag. Made in the USA.

- Available in rectangular or round designs
- Rectangular models designed to fit catch basins from 16 in. x 20 in. to 42 in. x 42 in.
- Round model designs fit catch basins from 27 in. to 29 in. in diameter
- All models available with or without oil-absorbent feature
- Requires no special tools to install and remove
- Overflow rate of up to 500 gpm helps avoid ponding

Model No.	Description	Weight		Compliance
T8701	500 gpm Basin Insert-Sediment, Round Adjustable 24 in. - 26 in./61 cm. - 66 cm. - Black	2 lbs./9 kg.	Helps With NPDES, 40 CFR 122.26

POLY DRUMS

For nearly 30 years, Eagle Manufacturing's ever-growing Poly Drum product line has handled both hazardous and non-hazardous storage needs for customers by offering Lab Packs, Overpacks, Open-Head and Salvage Drums. The 14- (53 L), 20- (75.7 L), 30- (113.6 L) and 55-gallon (208.2 L) Lab Packs and Open-Head Drums are available with plastic lids and a choice of metal or plastic lever locking rings. The 14- (53 L), 20- (75.7 L), 30- (113.6 L), 55- (208.2 L), 65- (246.1 L) and 95-gallon (359.6 L) Overpack and Salvage Drums are available with metal bands or screw-on lids. All models are constructed of chemical resistant, high-density polyethylene (HDPE) with UV inhibitors, are durable and lightweight and available in yellow, blue and black. All of our products are 100 percent made in the USA.

All drums feature:

- Blow-molded HDPE construction
- Chemical & weather resistant
- HDPE incinerates completely
- United Nations (UN) Certified to HM-181
- Operating temperature range (-40° F/-34° C to 140° F/54° C)
- Drop tested – max weight at 0° F/-17° C (48 hrs.)
- Approved for use with Packing Groups I, II and III
- UV Protection Package
- UL 94HB Flammability Rating
- Nestable for ideal storage (except model 1656)
- FDA 21 CFR 177.1520 Food Grade Quality
- Stack tested – three high at maximum weight capacity (24 hrs.)

Eagle drums are ideal for:

- Safe storage, handling and transportation of hazardous materials
- Spill containment and cleanup of hazardous materials
- Spill kit containers
- Original shipping containers
- Biowaste disposal and incineration

Eagle 10-Gallon Poly Drum

Eagle's NEW 10 Gallon Lab Pack / Open Head Drum is blow molded with durable high-density polyethylene (HDPE) for maximum performance and quality. The HDPE is chemical and weather resistant and includes a UV protection package. Available in Yellow, Blue, Black or Natural HDPE, with plastic or metal lever lock, or metal bolt ring. 100% Made in the USA.

Features:

- Constructed of durable HDPE
- Nestable storage to optimize shipping and storage space
- Plastic or Metal Lever Locking Bands
- FDA 21 CFR 177.1520 Food Grade Quality
- Operating Temp range (-30° F to 130° F)
- Drop tested-max weight @ 0° F (48hrs)
- UL 94HB Flammability Rating

Lab Packs/Open Head - for use with smaller non-damaged bottles, cans, carboys and 5-gallon (18.9 L) pails of non-leaking hazardous materials – if leaking, must pack with sufficient sorbents – NO FREE LIQUIDS.

Salvage Drums - for use with damaged or leaking containers of hazardous materials or used absorbent materials contaminated with a hazardous substance. Require "Salvage Drum" labeling and must pass a 3-PSI pressure test.

Regulatory Compliance:

Lab Packs/Open Head: DOT 49 CFR 173.12 / Overpacks: DOT 49 CFR 173.25

Salvage Drums: DOT 49 CFR 173.3

Benefits of Blow-Molded HDPE Drums

HDPE is a very high molecular weight material, designed for an optimum balance of density, molecular weight and molecular weight distribution, demonstrating maximum property advantages for large products that require high impact resistance. Some of these advantages include:

- Environmental stress crack resistance (ESCR)
- Impact strength – even at a low temperature

- Flexural modulus – durability and resilience
- Chemical resistance – to wide range of chemicals
- Abrasion resistance – prevents gouging and scuffing
- Ultraviolet (UV) protection – superior blending process
- Plain Lid with gasket to seal lid to drum with drum lever ring (lever rings come in powder-coated metal or HDPE plastic)
- Lid with Two 2 in. (5.08 cm.) bung lids for drum pump straight thread connections
- Lid with one 2 in. (5.08 cm.) and one 3/4 in. (1.9 cm.) for drum pump straight thread connections

MATERIAL HANDLING

Eagle Manufacturing has offered affordable protection for warehouses, plants, factories, stores and other facilities for more than 20 years. From column protection to maintenance-free post-sleeves to ramps and dockplates, Eagle has the Compliance Solutions to help keep your facility protected. Our Material Handling products are designed to meet your specific needs, and are 100 percent made in the USA.

Multiple products for Material Handling and Facility Protection:

- HDPE Bollard Post Sleeves
- Bollard Posts & Machine Guards
- Wall & Corner Protectors
- Protective Parking Stops
- Poly Guide-Post Delineators
- Safety Clearance Bars
- Decorative Post Sleeves
- Portable & Fixed Dockplates
- Column Protectors
- Lightweight Poly Curb Ramp
- Lightweight Shipping Container Ramp

MATERIAL HANDLING

GUARDS & PROTECTORS

Bollard Posts and Machine Guards

Bollard Posts add protection to your facility and prevent damage. Posts feature a durable baked-on powder coat in safety yellow to provide high visibility. Each post is made of 1/4 in. (.63 cm.) thick (Schedule 40 or Schedule 10) steel mounted on 3/8 in. (.95 cm.) steel plates, pre-drilled (3/4 in./1.9 cm.) for easy installation. The black HDPE post caps are included and can be removed to fill posts with concrete for extra protection.

Machine Guards

Our machine guards provide superior protection for facilities and equipment by creating barriers between traffic areas and your valuable machinery.

Bollard Posts - Schedule 40 and Schedule 10

Wall Protectors and Corner Protectors

Wall Protectors

Our wall protectors help prevent damage to walls in areas with forklift, hand truck or drum traffic. These guards are made of high-visibility yellow, high-density polyethylene; never need painting; and resist cracking and chipping. Can be mounted end to end, and feature unique energy absorbing construction. (Set of two) (Anchors not included)

Corner Protectors

HDPE Corner Protectors deflect the impact, helping to protect plant areas prone to damage by fork truck, hand truck or personnel traffic. Provide easy installation with bolts or optional straps (not provided). Two sizes to meet most needs sold in sets of two, inside measurement 4 in. (10.2 cm.) x 8 in. (20.3 cm.) and outside measurement 6 in. (15.2 cm.) x 10 in. (25.4 cm.).

Model 1726 6 in. (15 cm.) Wall Protector 6 in. x 42 in. x 2 in. (15 cm. x 106.7 cm. x 5.1 cm.) (each) (Sold as set of two) (Anchors not included)

Model 1725 42 in. (106.7 cm.) Corner Protector 42 in. x 6 in. x 10 in. (106.7 cm. x 15.2 cm. x 25.4 cm.) (each) (Sold as set of two)
IM 4 in. (10.2 cm.) x 8 in. (20.3 cm.)
OM 6 in. (15.2 cm.) x 10 in. (25.4 cm.)

Wall Protectors			
Model	Item	Dimensions (w x l x d)	Weight per set
1726	6" Wall Protector (set of two)	in: 6 x 42 x 2 cm: 15.3 x 106.7 x 5.1 each	8 lbs./3.7 kg.
1728	10" Wall Protector (set of two)	in: 10 x 42 x 2 cm: 25.4 x 106.7 x 5.1 each	14 lbs./6.4 kg.

Corner Protectors			
Model	Item	Dimensions (w x l x d)	Weight per set
1720	21" Corner Protector (set of two)	in: 21 x 6 x 10 cm: 53.3 x 15.2 x 25.4 each	10 lbs./4.6 kg.
1725	42" Corner Protector (set of two)	in: 42 x 6 x 10 cm: 106.7 x 15.2 x 25.4 each	20 lbs./9.1 kg.

100% Recyclable

Column Protectors

Affordable protection for warehouse and factory columns, posts and beams. Absorbs impact from tow motors, minimizing column, fork truck, and personnel damage and injury. These blow-molded 100 percent high-density polyethylene protectors are resistant to most chemicals and feature key-lock to prevent slippage and assist with installation alignment. Available to fit 4 in. (10.2 cm.), 6 in. (15.2 cm.), 8 in. (20.3 cm.), 10 in. (25.4 cm.) and 12 in. (30.5 cm.) round or square supports. No tools required. Two halves attach with easy-to-install straps. Protectors come in yellow with black straps, and orange or lime green with high-visibility reflective straps. (Tested with fork truck: 8,500 lbs. (3855.5 kg.) at 5 mph (8 kph). Replace if damaged.)

The 1709 model was designed to fit 9 in. (22.9 cm.) round columns and is available in yellow with black straps, and orange or lime green with high-visibility reflective straps.

Mini Column Protectors

Eagle's 'Mini' Column Protectors (Model 1724) are perfect for affordable warehouse and factory protection under fire extinguishers, and absorb impact from tow motors, minimizing column and fork truck damage. These blow-molded, 100 percent high-density polyethylene protectors feature key-locks to prevent slippage and assist installation alignment. Two halves attach with easy-to-use straps with no tools required.

These models are designed to fit 6 in. (15.2 cm.), 8 in. (20.3 cm.), 10 in. (25.4 cm.) and 12 in. (30.5 cm.) round or square supports and are available in yellow or red. (Replace if damaged)

Rack Guard

The NEW Eagle Rack Guard is designed to help prevent rack and shelving damage from forklifts and pallet trucks. With a quick and easy snap on design, these models require no tools to install and can be stacked for a desired height to comply with the international standard of 16" (40.6 cm.). The rack guard's narrow profile minimizes interference with valuable storage space.

MATERIAL HANDLING

GUARDS & PROTECTORS

Eagle offers the widest selection of HDPE Bollard Post Sleeves available

Eagle's HDPE Bollard Post Sleeves make old bollards look like new. High Density Polyethylene (HDPE) construction with UV inhibitors resist fading, rusting and cracking. The post sleeves are designed to easily fit over 4 in. (10.2 cm.), 6 in. (15.2 cm.) and 8 in. (20.3 cm.) NPT pipe and eliminate the need for annual maintenance, while helping to protect vehicles and the post from impact damage. The unique design allows for easy slide-on installation.

Benefits of all Eagle HDPE Post Sleeves:

- Improves property appearance at minimal cost
- Saves on annual painting and scraping of old bollards
- Slides over existing posts for easy installation
- High-quality, all-weather HDPE – will not rust or dent
- Fade resistant with UV inhibitors
- Colors to match many exteriors
- Sleeve height may be easily trimmed for an exact fit
- HDPE thickness

Original HDPE Bumper Post Sleeves

The Original HDPE Bumper Post Sleeves have a vertical fluted design to provide extra protection and easier installation. They come 56 in. (142.24 cm.) in length (to fit 4 in./10.2 cm., 6 in./15.2 cm. and 8 in./20.3 cm. pipe) and are available in yellow, red, blue, white, green, orange, lime, brown and black. The 72 in. (182.9 cm.) length Bumper Post Sleeves (to fit 6 in./15.2 cm. and 8 in./20.3 cm. pipe) are available in yellow only. Sleeve height may be easily trimmed for an exact fit.

Protective Parking Stops & Speed Bump-Cable Protectors

Eagle Parking Stops, designed with safety and durability in mind, eliminate the need for seasonal painting. Flexible enough to fit parking lot contours – the rugged HDPE Stops are weather and chemical resistant. Eagle offers four colors – the high-visibility yellow, blue for handicapped areas, gray and black. Anchor kit with three spikes and tube of asphalt adhesive included.

Eagle Speed Bump-Cable Protectors add safety to your facility. The high-visibility yellow bumps are engineered at the perfect angle. They also act as a dual channel cable protector, feature a non-skid surface, and are weather and chemical resistant. HDPE construction means you eliminate the need to continually paint bumps. The 6 ft. (22.7 cm.) anchor kit includes six spikes and a tube of asphalt adhesive. The 9 ft. (34.1 cm.) anchor kit includes eight spikes and a tube of asphalt adhesive.

Poly Guide-Post Delineators™ & Poly Bollard Posts

Poly Guide-Post Delineators™

Lightweight, portable, yieldable HDPE posts used to warn, guide and delineate. Feature 3 in. (11.4 cm.) – wide reflective bands for increased visibility and are MUTCD compliant. Posts are mounted on a 10 in. (37.9 cm.) sq. poly plate with anchor slots (3/4 in./2.8 cm.) for permanent use or used with steel base for portable stability.

Poly Bollard Posts

Create a low-cost, maintenance-free caution zone. These 42 in. (159 cm.) – high poly bollards are available in a 5 in. (18.9 cm.) or 7 in. (26.5 cm.) model with a poly base with anchor slots (3/4 in./2.8 cm.) that can be anchored for maximum stability or used with optional weighted steel base.

Safety Clearance Bars

Eagle introduces two safety clearance bars for use in drive-thrus, parking garages and much more. Clearance Bars provide an early warning for motorists, reducing structural and vehicle damage. This is even more necessary as SUVs and pickups have grown in size. The Clearance Bars are constructed of high-visibility yellow polyethylene and are available in 76 in. (193 cm.) and 77 in. (195.6 cm.) lengths in either 5 in. (12.7 cm.) or 7 in. (17.8 cm.) outside diameter. Both come with eyebolts for easy installation (chain not included).

Eagle Airplane Service Ramp

Model 1791Y

Eagle's new Airplane Service Ramp is constructed of durable, lightweight, high-density polyethylene (HDPE) for use in transferring service carts from the service vehicle into the aircraft. This ramp features a lightweight (28 lbs./12.7 kg.) ergonomic design with a raised textured surface, beveled entry and exit edges, high-visibility yellow HDPE, full-length guardrails with integrated handles for easy handling and a 1,000-lb. (453.6 kg.) load capacity (UDL). 100 percent made in the USA.
